

**PATIENT QUESTIONS:** During the past **3 months**:

1. Has any doctor told you that you had blood in your stool or "internal" bleeding? If so, who, when?
2. Have you had your stool tested for blood either by turning in a sample on a card to a laboratory or physician's office or by digital rectal examination? If yes, when was this done and where?
3. Have you been seen by a gastroenterologist (GI specialist)? If so, who and where?
4. Have you had a colonoscopy, sigmoidoscopy, EGD (aka endoscopy or gastroscopy) or capsule endoscopy (aka pill camera)? If yes, when, by whom and where?
5. Has any doctor told you that you had an infection in your bloodstream? If so, who and when?
6. Have you been treated with intravenous antibiotics? If so, where, when and by whom?
7. Has any doctor told you that you had an infection, inflammation or irritation of the lining around your heart? If so, who told you this and when did they do so?
8. Has any doctor told you that you had pneumonia or a lung infection? If, who did so and when? Have you been seen by a pulmonary (lung) or infectious disease specialist? If so, who, where, when?

**At anytime in your past:**

9. Have you ever been seen by a hematologist (blood specialist)? If so, who was it and when did you most recently see them?
10. Have you ever had a bone marrow biopsy done? If so, who did this, when and where?
11. Have you ever been told that you have an abnormal protein in your bloodstream? If so, who told you this and when?
12. Have you ever been treated for dependence on drugs or alcohol? If so, when and where?
13. Do you have any history of HIV/AIDS?
14. Have you ever had cardiac arrest or had your heart stop?
15. Have you ever been told you have cancer other than non-melanoma skin cancer?
16. Have you ever been tested for Hepatitis B? Have you ever been told you have Hepatitis B?
17. Have you ever been on a medication to treat high cholesterol? If stopped, why?
